New Requests

 Art Barn/College of Agriculture Domino Effect

 Psychology Graduate Students

Assignment of New Requests

HSRC Space Allocation Committee Meeting
October 8, 2007 2:00 p.m.
Minutes

Minutes from 2006-7 Meetings were reviewed and approved.

The following proposed policy change was approved and posted on the website:

When personnel having primary assignments in an academic department are displaced as a result of research that generates indirect return to the CEHS, the Department Head may request temporary HSRC office space for a specified period of time. Annual review of these requests is required and continued space allocation is subject to existing policy.

Space Committee members reviewed of Existing Allocations and list of funded projects generated by the Sponsored Programs Office

One New Space Request from the Department of Psychology was reviewed and David Stein was invited in to answer questions from the committee.

The committee requested that the Chair investigate alternative space with the HSRC instead of granting the request. Dr. Dorward and Dr. Stein subsequently reviewed other available space on October 10, 2007, and Dr. Stein made a new request for available space on the third floor. This request is pending.
